

Career Certificate

Landscape Technician

Curriculum Code: 970**Program Information**

To prepare students for the Certified Landscape Technician (CLT) program sponsored by the New Jersey Landscape Contractors Association (NJLCA). This is a nationwide certification examination process underwritten by the American Landscape Contractors Association (ALCA).

Students may also seek the designation Certified Nursery Landscape Professional (CNLP) under the auspices of the New Jersey Nursery Landscape Association (NJNLA).

When You Graduate

Cumberland County, as well as the southern New Jersey region is experiencing an unprecedented housing boom. County-wide, there are at least 8,000 approvals for housing units to be constructed over the next several years. The race track in Millville is scheduled to open during the summer of 2008. These building activities will attract more businesses and residents. All of this will require a greater number of landscape professionals.

Certificate programs provide specific career skills development as well as the opportunity to test an area of interest, or enhance a degree program. Students who complete a certificate program can continue to obtain a degree.

Landscape Technician
