The Gift of
SUCCESS

**CUMBERLAND COUNTY COLLEGE
FOUNDATION**

The Gift of SUCCESS

Helping another individual is one of the greatest gifts a person can give.

Through the Gift of Success Campaign, you can provide a student with the necessary tools to succeed in life. Your gift will impact students, their families and the entire community.

At Cumberland, we strive to identify and implement new programs that will help students reach their true potential. Many students face roadblocks, financial and personal, that can impede on their chance of success. With your support, we will be able to offer textbook loan programs, peer tutoring, specialized labs and enhanced faculty and advisor programs that will directly help in removing the barriers students face.

Education opens up a world of possibilities. The majority of family sustaining jobs in America require a higher education. By helping a student obtain their degree you are giving them a chance to find employment that will enable them to provide for their family.

Education is priceless, for once earned, it is the owner's forever. Your donation to the Gift of Success Campaign will give a gift that will last a lifetime.

Knowledge at Hands Reach

College textbook costs have sky rocketed! The average student pays more than \$1,000 for textbooks per year. Colleges do not have control over the cost that retailers assign to textbooks. A textbook loan program has been established to assist students with the burden of paying for their books.

"The price of textbooks was a real surprise. Some students cannot afford to buy them and rely on sharing or hoping to find them in the library.

My advisors encouraged me to become involved in campus activities. I then became Vice-Chair of Student Senate and graduated from the Student Pathways Leadership Institute (SPLI) program."

- P.J. Muniz
Theatre AFA/Acting major
age 22

Mastering the Necessities

Many of today's students struggle with math and writing skills. The lab environment allows students to work at their own pace with an instructor present to ensure progress. The labs help students receive the one-on-one attention they need to succeed.

Peer to Peer

Research has proven that the majority of students pay more attention and are better able to comprehend material when they learn it from a peer.

At Cumberland, special study groups and one-on-one sessions are provided by students who have been successful in course content.

"I struggled for two semesters not recognizing or acknowledging that I have Dyslexia. The faculty and staff helped me embrace my learning disability, which allowed me to feel more confident in accepting who I am."

- Jonathan Hudgon
Criminal Justice major,
age 34

Relationships Matter

At Cumberland our faculty and advisors are hands on! They assist students with their individual needs and develop pathways tailored to each student. Class size is small and allows instructors to know students by name. Instructors are able to interact one-on-one with students and better assist them.
