#### Course Description

Students are assigned to the Radiology department of a clinical education center for practical experience.

#### Learning Outcomes

At the completion of this course, students will be able to:

- Establish initial competency in a minimum of 24 procedures.
- Complete two (2) continual competency evaluations in exams in which competency has been established in prior clinical practicum courses
- Assist a qualified radiographer in those procedures for which laboratory competency has not been established
- Demonstrate professionalism and high quality patient care

#### Topical Outline

N/A

#### Required Texts and Other Materials

None

#### Student Assessment

Assessment may be accomplished through competency evaluations, performance evaluations, and image evaluations.

Grades for this semester will be based on the average of the following three components:

1. performance evaluations
2. image evaluations
3. the number of competencies achieved

A minimum number of twenty four (24) clinical competencies must be achieved to successfully complete this semester, regardless of other clinical grades earned. A grade of 90% or above is passing for all clinical competency evaluations.

#### Academic Integrity

Plagiarism is cheating. Plagiarism is presenting in written work, in public speaking, and in oral reports the ideas or exact words of someone else without proper documentation. Whether the act of plagiarism is deliberate or accidental [ignorance of the proper rules for handling material is no

excuse], plagiarism is, indeed, a “criminal” offense. As such, a plagiarized paper or report automatically receives a grade of **ZERO** and the student may receive a grade of **F** for the semester at the discretion of the instructor.
